Experience

Java Full Stack Intern *BrainOvision Solutions Pvt. Ltd.*

Full Stack Development

- Developed responsive user interfaces using **HTML, CSS, JavaScript, and React**, improving usability across devices.
- Worked with backend technologies including **Java, Node.js, and MongoDB** for data handling and application logic.
- Integrated external APIs (including **GROQ/OpenAI API**) to enable AI-powered features and real-time responses.
- Optimized application performance by minimizing re-renders, reducing API calls, and implementing lazy loading.
- Collaborated in Agile teams using **Git** to deliver weekly feature updates and maintain version control.

Projects

AI-Powered Product Comparison & Recommendation System

(React Native, Node.js, Firebase, MongoDB, Web Scraping)

- Engineered a real-time product comparison system that aggregates and analyzes pricing data across multiple e-commerce platforms to support intelligent purchase decisions.
- Implemented web scraping to extract live product prices, ratings, and availability data from multiple e-commerce websites.
- Built automated price-drop and stock alert system using notifications to help users track deals and make smart purchasing decisions.
- Designed a responsive comparison dashboard with filtering, authentication, and product trend analysis features for better user experience.

Personal AI Assistant *(MERN Stack: MongoDB, Express, React, Node.js, GROQ/OpenAI API)*

- Developed a full-stack AI assistant enabling ChatGPT-style interactive QA, Wikipedia/YouTube search, and automated quiz generation for personalized learning.
- Implemented secure JWT-based authentication, chat history topic tracking with Redux for enhanced user experience and data persistence.
- Deployed a production-ready application on Vercel (frontend) and Render (backend), ensuring responsive UI, real-time AI responses, and robust API integration.

Job Portal – Employment Platform *(MERN Stack: MongoDB, Express, React, Node.js)*

- Developed a full-stack job portal for candidates to search/apply jobs and recruiters to post/manage listings.
- Implemented secure authentication, personalized dashboards, application tracking, and status notifications for both users.
- Integrated job filtering, trending jobs, and responsive UI for a smooth experience across devices.
- Deployed on cloud (Vercel frontend, Render backend) with RESTful APIs for production-ready performance.

Technologies

Languages: C, C++, Java, JavaScript, Python

Frontend: React.js, Redux, React Query, HTML5, CSS3, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, RESTful APIs, MongoDB, Appwrite

Tools & Misc: Git, GitHub, Vite, Figma, Postman

EDUCATION

Aditya Engineering College, Surampalem

2022 – 2026

B.Tech in Computer Science and Engineering — CGPA: 8.75/10

Andhra Pradesh, India

Bhanu Memorial English Boarding Secondary School

2018 – 2020

Higher Secondary Education — GPA: 3.43/4.0

Biratnagar, Nepal

Coursework

- **Relevant Courses:** Object Oriented Programming (OOP), Computer Networks, Database Management Systems (DBMS), Operating Systems, Data Structures and Algorithms (DSA)

ACHIEVEMENTS

- Awarded **”Coder of the Year 2023”** in the first year of B.Tech.
- Won **First Prize** along with a cash award in a Hackathon competition.
- Certificate of Appreciation for securing **2nd Prize** in **”Code Carnival - 2K25”**, Aditya University.
- Secured **multiple Hackathon certificates** for building real-time web apps and presenting optimized technical solutions under time constraints.
